

# SUNSET WINDOW TINT

## AUTOMOTIVE FILM

Improving comfort, protecting car interiors and the occupants is a hallmark of Automotive Window Films. Whether you are looking for heat-rejection technology in a clear film or simply to minimize the harmful effects of the sun, Automotive Window Films are an ideal choice. Auto window tinting installed at the convenience and privacy of your home.

- Durable scratch resistant coating
- Wide array of VLT's to comply with state laws
- Variety of roll widths to minimize waste
- Excellent optical clarity
- Ultraviolet rejection of 99%
- Comprehensive manufacturer's warranty

## ARCHITECTURAL FILM

Windows provide light, beautiful views but the sunlight can also cause hot spots and severe fading of your furnishings. Windows are the most vulnerable points in your home during break-ins or storms. Window Films are designed to reject solar heat, reduce fading, and they can add a valuable layer of protection to your home. Best of all, our Prestige Series films can provide all of these benefits without changing the look of your home. Discover how Window Films can improve your home.

Energy savings: reduce cooling costs by up to 30%

Fade reduction: block up to 99% of harmful UV rays to reduce fading of furnishings and carpet
